NOT (sin)

You have almost "blotted" your copy
- book "beyond repair!"

By telling Johnny your "skin" is Tambijimba
!!! (the same as his mine are!).

You are NOT my "brother"
But grandson (maternal)

So A. TABUNGARDI

At the Wailbu name is: _____

TABBULA

~~XXXXXXXXXXXX~~

(for last 4
or 5 years!!!)
You have used it!

Don't do it again!

Or you will be (to

use a Communist term) liquidated!

No "sin" nicely brought up people don't
comment on the "lumpiness" of their hostess's
bed! (More especially when they have been too LAZY
to ring up (21413) to say when they are coming.

I have a quite good mattress. But
no time to pump it up (yesterday), dash you!

!!! I think you were racing north to escape
a taxation fine!!! Pinching my Salvation Army
receipt - As a \$6 deduction!!!! (VER)

2. Naomi did not ^{ever} tell me about her
Father (Maria's). Was he killed by aborigines?
He was dead when I knew them
(Bet Liddillon, Swansea Tas.) (later bought
by "Gam" Jones).
"millionaire" (Mitchell)

Did she tell you Paul her brother
was Queensland Director of Health when
alive. (I danced with him when I
was (about?) at Swansea. the a youth
16

His only son (perhaps illegitimate?) is
now a Melbourne doctor (Mitchell).
with children I think (wrote). She
stays with them when there. I seem to
remember.

Am delighted you two (friends of
mine) are friends of each other! too.

And I hope you will go to
Hobart next year AFTER YOU
HAVE BEEN HERE - + meet

Some of the younger generations of
Gibbils (Naï's mother's people) + some of
the (older ones) ^{were} friends of mine + mother's.

We shared a home with one (when my
Father died, - in 1909. The Judge's sister.)

So you have met (+ liked) my
dearest (living) friend. I'll find out her
age!!!

(About 69
I think)

3 You have got to write at least
one letter, & incidentally tell me
plenty of news in it.

Especially
* your age (37?) (30?) - & date of
birthday. *

I'll send more "PINK" (Sturt
Bean Tree) seeds later. I'd love
to have an indigenous tree (named
for me) in your garden. Lovely thought!

(I think it would grow.)

(see back)

But am doubtful about Mulpa.
- Mr Barclay said Tennant Creek
was the northern boundary of
the Mulpa. He called that the
Mulpa Belt's northern limit.

By the way the Sturt Bean Tree
is Erethina Vespertilio - botanically
(Hope spelling is correct?)

Today
29th

Had a letter - from Cynthia Nolan (with
thanks for hospitality - "from all four") &
"hoping to meet again!"
And a lovely letter - from Nancy Turner (and
all the Turners, - Melb.) (for
How did you find your papers? (+ The Hun. (Sec)?)

4/ I wonder was it "your" D. White?

Am told that: ^{it's} yesterday - after
Johnny (& you) had left -
four native men & one woman
(tracks are there!) came on
Reserve (up near Escape vine
cutting you saw) & went up
hill towards 1,000,000 gal storage
tank - ^{running} ~~It is thought~~ one man ~~+~~
^{carrying a child} the woman may have been chased
by police - as a young man
went into hospital - picked up the
child & wife (^{next bit} this is uncertain
at present) "bashed the doctor"
(who may (?) have tried to stop him
taking them away?)

So I have had to call for
a police patrol (at dusk) today
- up near the Tank.
(They may still be there!!)

Are ^{rather} worried, Tabbula

Hope you did ^{not} catch my wops?
